## Technical Skills

### Programming Languages

- JavaScript
- TypeScript
- Python

### Frontend

- HTML5
- CSS/SASS
- React
- Redux
- Next.js
- Redux Toolkit
- Vue.js
- Adaptive design
- A11y

### Backend

- Node.js
- MongoDB
- Express.js
- SQL

### Documentation and API

- REST API
- JSON/YAML
- Markdown
- Swagger

### Tools and Technologies

- GIT/Github
- CI/CD
- Github Actions
- Axios
- WebPack
- Parcel
- DigitalOcean

## Education

- Master of Telecommunication**  
Odesa National Academy of Telecommunications O.S. Popov  
09/2006 - 06/2010 | Ukraine
- Master of Law**  
European University  
09/2020 - 12.2021 | Ukraine

## Certificates

- FullStack Developer - 10/2023
- TypeScript - 03/2024
- VueJS - 06/2024
- DevOps and Kubernetes - 05/2024
- Telc DTB B2 - 07/2024
- Englisch B1 - 12/2023

## Project Experience

### Portfolio - Github

October 2024 - today

Developed a personal website to showcase professional skills, projects, and contact information.

- Created a responsive and interactive user interface using Next.js and React
- Implemented server-side functions to handle contact forms and dynamic content
- Integrated animations and styling with Styled-components libraries
- Ensured cross-browser compatibility and optimized performance
- Deployed and maintained the website on a personal server
- Achievements: Achieved a perfect score of 100 across all Lighthouse parameters

Technologies: Next JS, React JS, TypeScript, Styled Components, Vercel

### Tetris - Github

February - March 2024

- Developed a web-based Tetris game implementing core gameplay mechanics such as block movement, collision detection, line clearing, and dynamic scoring.
- Integrated sound support with an option to mute audio.
- Saved high scores using local storage.
- Demonstrated strong algorithmic and problem-solving skills through efficient code structure and DOM manipulation.

Technologies: HTML, CSS, JS

### SmileBar - Github

November - December 2023

Commercial team project by SoftRyzen. Role: Developer  
Participated in the development of a website for a professional teeth whitening studio in Lviv.

- Developed the "Advantages" and "FAQ" sections with tab functionality
- Designed visual elements, including backgrounds and animations
- Configured styles in the tailwind.config file
- Collaborated with the team to resolve cross-browser issues and optimize the interface

Technologies: Next JS, Tailwind CSS, Sanity, Telegram bot API

### Car Rental - Github

October - November 2023, February 2024

- Developed a car rental service website offering convenient search and booking functionalities
- Implemented filters by brand, price, and mileage to facilitate car searches
- Developed functionality for adding cars to favorites for future booking
- Ensured responsive design for optimal display across various devices

Technologies: React JS, Redux Toolkit, Axios, Framer Motion, Emotion Styles

### Goose Track - Github

September - October 2023

Team-project. Role: Frontend Team Lead, Scrum Master, Developer.  
Developed an event schedule management system with Google authentication support.

- Configured project structure.
- Created markup and functionality for the monthly calendar.
- Set up and managed Trello board, participated in Agile methodology meetings.
- Conducted code reviews for 9 frontend team members.

Technologies: React JS, Redux Toolkit, Node.js, Express.js, MongoDB

### Phonebook - Github

July - September 2023, today

Developed a full-featured web application for storing and managing phone contacts

- Developed the frontend using React to create an intuitive user interface.
- Created the backend with Node.js to handle requests and data storage
- Deployed the backend on a DigitalOcean server to ensure availability and stability
- Ensured a responsive design for proper display on various devices.

Technologies: React JS, Redux Toolkit, Axios, Node.js, Express, MongoDB, REST API, DigitalOcean

## Languages

- English - Intermediate B1
- Germany: Upper-Intermediate B2
- Ukrainian: Native
- Russian: Proficiency

## Soft Skills

- Self-motivation
- Responsibility
- Multitasking
- Flexibility
- Time Management
- Teamwork

### **Bookshelf - Github**

May 2023

Team-project. Role: Developer.

Developed a platform for searching and purchasing books with a modern, responsive design.

- Developed and integrated core React components (Category-Books, API requests, Loader, Footer, TeamModal)
- Collaborated with the team using Trello to track tasks and progress
- Participated in meetings to discuss and resolve technical issues (Agile)
- Actively assisted in code reviews of other team members

**Technologies: HTML, SASS, JS, Parcel, Rest API, Firebase**

### **Mimino - Github**

January - February 2023

Team-project. Role: Team-lead, developer.

Developed website of the hotel and restaurant complex.

- Adaptive layout and adaptive graphics.
- Build project on github, check for build errors and live page performance.
- Conducted code reviews for 14 team members.

**Technologies: HTML, SASS, JS, Parcel**

## Internship

### **Frontend Developer**

November 2023 - December 2023

SoftRyzen | Kyiv, Ukraine (remote)

- Collaborated on the development of a website for a professional teeth whitening studio in Lviv.
- Created interactive "Advantages" and "FAQ" sections featuring tab navigation.
- Designed and implemented dynamic visual components, including custom animations and background imagery.
- Customized style settings via Tailwind CSS configuration.
- Coordinated with team members to resolve cross-browser issues and refine the user interface.
- Explored and integrated external tools by studying documentation for Sanity and the Telegram Bot API.

### **FullStack Developer Training Program**

November 2022 - October 2023

IT-School GoIT | Kyiv, Ukraine (remote)

- Project Development: Participated in the creation of 5 individual and 3 team projects focused on developing web applications using JavaScript, React, Node.js, and MongoDB.
- Leadership and Process Management: Fulfilled the roles of Team Lead and Scrum Master in team projects, including project organization, task distribution, project setup, development process management, and implementation of Agile methodologies
- Adoption of New Technologies: Studied and applied new libraries and technologies, optimizing code to enhance performance and efficiency
- Team Collaboration and Communication: Maintained constant communication with peers, assisted in resolving issues and bugs, and interacted with the mentor on behalf of the team to discuss technical solutions
- GitHub Management: Reviewed and conducted code reviews for all team members, ensuring code quality and adherence to project standards.

### **Lawyer**

Oktober 2021 - December 2021

Legal Sector of the State Emergency Service of Ukraine |  
Kyiv, Ukraine

- Legal Sector of the State Emergency Service of Ukraine | Kyiv, Ukraine
- Practiced documentation management and compliance procedures during employee hiring and termination processes
- Reviewed and processed case materials, ensuring adherence to procedural standards
- Conducted analytical work, including review and drafting of contracts and claims
- Collaborated with state systems for process tracking, gaining experience with data management and systemized workflows (e.g., ЄCITC, АСБП)
